Edited by PETER PARLEY. With Eight Original Designs. One handsome 12mo., $1,00. The same, in full gilt sides and edges, $1,50.

"Every child in the United States who has any taste for good books will brighten up at the name of the venerable Peter Parley. Two new volumes from his charmingly garrulous pen will be as welcome as the Thanksgiving roast turkey. In the "Balloon Travels" you have a bird's-eye view of the most interesting portions of Europe, as you soar into the upper air at the side of the famous Mr. Robert Merry. He is kind enough to tell you all about the curious things you are looking down upon, and by the time you have finished your aerial journey you will find that you know much more than when you started. Mr. Gilbert Go-Ahead is another guess sort of a person. He travels over the best part of the world by land and sea, and has no taste for riding in Baloons. When he comes home he has a plenty of stories to relate about the wonders he has seen abroad. Beside the delightful talk which Peter gives you in these books, they are full of fine engravings, which almost make you feel as if you had seen the curiosities he tells about."—*N. Y. THE BIOGRAPHY OF THE DAY.
Will be ready Dec. 20th, the Biography of the
HON. FERNANDO WOOD,
MAYOR OF NEW YORK CITY,
BY DONALD MACLEOD, ESQ.,
Author of "Life of Sir Walter Scott," "Pynnshurst," "Bloodstone," &c.

MAYOR WOOD, by his intrepid and independent course as the Chief Magistrate of the metropolis of our country, has won the admiration of the whole civilized world, and created a world wide interest, and a special curiosity to know the history of such a man—hence this production. The work, aside from interest in the man, will be exceedingly entertaining, full of stirring incidents. Library size, beautifully printed on fine, heavy paper, superb binding, and will contain a splendid life-like, steel engraving of the Mayor, by Buttre. Price, $1. Sent free of postage on receipt of price. Energetic Agents wanted to sell this work in all parts of the United States. Address

FIRE INSURANCE COMPANY.
OFFICE IN MARTIN'S BLOCK, MILWAUKEE, WIS.
Capital over $165,000, in Cash & Premium Notes.

THIS COMPANY offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incompatible case with which losses are settled. During the last five years, this Company have issued 2606 Policies, and made but three assessments, at a cost to the property insured, not exceeding two mills on the dollar.—Its business is principally confined to this State.

LILLIE'S SAFE TRIUMPHANT.
New York, Nov. 14th, 1855.
Philander Eddy, Ag't World's Safe Co., Chicago, Ill.

DEAR SIR:—You will notice by the New York papers that Lillie's Chilled Iron, Fire and Burglar Safes and Bank Locks, manufactured by the World's Safe Co., Troy, N. Y., have as usual obtained another *victory* at the great Fair of the American Institute, held at the Crystal Palace, over the *combined sheet iron* Safe makers, by securing the *first premium* on both Safe and Lock, separately. The Chicago certificate farce and posters were freely circulated here, but their malignant design could not defeat the *known superiority* of Lillie's Safe's, and the Crystal Palace jurors have now *confirmed* what the jurors at the Detroit Fair *decided*, the Chicago jurors *duplicated*, and the public *reiterated*, that Lillie's Safe and Bank Lock are the best in the world. Respectfully,

J. C. MORRIS,

MISCELLANEOUS.

THE
NEW YORK TRIBUNE, 1855-6

THE TRIBUNE is now in the middle of its fifteenth year; Vol. XV. of its weekly issue commenced on the 1st of September last. The American public need not now be made acquainted with its character or claims to consideration. With but a subordinate regard for prudence, policy or popularity, it has aimed to stand for Righteousness, for Truth, for Humanity, against fortified Iniquity, Fraud and Oppression. There is not a slave-trader on this Continent, though he may never read anything but his bills of sale and notes-payable, who does not know and hate THE TRIBUNE; there is not an extensive fabricator of drugged and poisonous Liquors who does not consider it a very dangerous and immoral paper, and wonder why its publication is tolerated in a commercial, cotton-buying City like New York. THE NEWARK MERCURY once forcibly remarked that it had never known a hard, griping, screwing, avaricious employer who was not hostile to THE TRIBUNE, nor one eminently generous and kindly who did not like it. Prompt and plain-spoken in its denunciations of iniquity and abuses of power, while claiming no exemption from human fallibility, it may have done temporary injustice to individuals, but it has never been unfaithful to Principle, nor deaf to the cries of the wronged and suffering. In its columns the advocates of novel and unpopular theories contemplating the melioration of human woes, especially those of the voiceless and down-trodden, have ever found audience and hospitality; while it has ardently resisted, and will persistingly combat, every attempt to proscribe and degrade any class because of diversities of Nativity, Creed, or Color.

In defiance of calumnies the most atrocious, and of hostilities the most deadly and untiring, THE TRIBUNE has grown steadily in public appreciation from the day of its origin. Its means of serving the public have been augmented in proportion. Instead of a single editor with one or two assistants, its organization now comprises a numerous body of writers, each fitted by special accomplishment and experience for the particular line of discussion to which his pen is devoted; the daily amount of reading matter given more than quadruples that of its earliest issues; a staff of valued correspondents encircles the globe, transmitting early and intelligent narrations of whatever is most worthy of attention; while Politics, Legislation, Literature, Art, History—in short whatever affects the social well-being of mankind, Polemic Theology alone excepted—finds here the freest and most searching discussion.

Attached by profound conviction to the beneficent policy of Industrial development and Internal Intercommunication whose most conspicuous champion through the last Half-Century was HENRY CLAY—imbued, moreover, with that spirit of forbearance toward our weaker neighbors and toward the much wronged Aborigines of this Continent and of peace with All which will hallow the name of Whig, THE TRIBUNE, while surrendering no jot of its proper independence cooperated earnestly and ardently with the Whig party, so long as its vitality was preserved. When in 1850—2 an attempt was made to interpolate slave-hunting into its creed, we sternly resisted that imposition; when, at the close of the last Presidential canvass, it was seen that a large portion of the Whigs preferred to defeat their own party rather than allow its Anti-Slavery wing to share its triumph, even under a conservative Chief on a Pro-Slavery platform, we knew and proclaimed that the Whig party was no more. Subsequent events, including the rise and culmination of the Know-Nothing conspiracy, and the speedy absorption therein of the whole force of Pro-Slavery Whigism, only confirmed our undoubting anticipations. With no sickly lamentations, therefore, for the inevitably bygone, but with hope, and joy, and sympathy, and words of cheer, have we hailed the beginning and watched the progress of that mighty REPUBLICAN movement which, impelled by the perfidious violation of the Missouri Compact, and stimulated by the astounding outrages whereof the rights of the Free Settlers of Kansas have been the victims—by the repeated and utter vitiation of their elections by an armed mob collected by conspiracy and hurled suddenly upon them from the border counties of the neighboring Slave State, is destined to sweep away the land-marks of old party feuds, and unite the true hearts and strong arms of the free-souled in one mighty effort to confine the scourge and scandal of our country within the limits of the States which unwisely uphold it. To the success of this effort, the energies of THE TRIBUNE will be sternly devoted; while the TEMPERANCE REFORM, including the entire suppression of the Traffic in Intoxicating Beverages, will find in it, as hitherto, an earnest and unflinching champion.

Commencing as a daily folio sheet of moderate size, and with scarcely a shadow of patronage, THE TRIBUNE is now issued in quarto form DAILY (three distinct editions), SEMI-WEEKLY and WEEKLY, on a sheet 44 by 34 inches, eight ample pages of six columns each. Its circulation has steadily grown from nothing to the following aggregates:

Daily issues (evening and morning)	29,500	copies.
Semi-Weekly	14,175	"
Weekly	137,750	"
California edition	6,000	"
Total	187,425	copies.

We believe no other newspaper in the world has a subscription list over half so large as this; and no periodical of any sort can rival it. And while its extreme cheapness rendering an increase of paying readers only an indirect pecuniary advantage to us, has doubtless largely swelled its subscription list, it would be absurdity not to perceive in this unprecedented patronage some evidence of public approval and esteem.

TERMS.

THE TRIBUNE employs no traveling agents and sends out no papers on trust. If it is not stopped when the term paid for expires, and the subscriber does not choose further to pay for it, we resort to no legal process to compel him. On the weekly, we mean to stop every paper on the expiration of the advance payment, awaiting a fresh remittance from the subscriber. If none comes, the account is closed. We pay no local agents; wish no money paid to any when the payer cannot trust him to mail or otherwise send it to us; once mailed, its safety is at our risk, and a serious risk it often proves; but are grateful to every one who deems it a good work to obtain and forward the names and money of his friends and neighbors. Our terms invariably are—for the

DAILY TRIBUNE, $6 per annum.
SEMI-WEEKLY, $3; two copies for $5; five for $11,25
WEEKLY, $2; three copies for $5; five copies for $8; ten copies for $12; twenty copies, or over, to ONE ADDRESS for $1 each; twenty copies, or over, to address of each subscriber, $1,20 each.

Additions may at all times be made to made to a club at the price paid by those already in it.

ANOTHER TRIUMPH OF HERRING'S SAFES.

MR. SILAS C. HERRING—
Dear Sir:—The safe I bought of you, nearly two years since, has "turned up" all right. We dug it from the ruins in the cellar yesterday. The safe was in the back part of the fourth story of "Totteral's Building," corner of Fifth and Chestnut streets, in the height of the fire of the 10th inst., and fell with the burning timbers a distance of 60 feet. It contained all my books and papers. Not a thing was saved on my premises except the contents of your safe, which effectually resisted all the "the fury of the flames." I am now using the same books and papers.

Yours, truly,

NEWS OF THE MORNING.—The *Canada* is in with later dates from Europe. The news, which is politically unimportant, will be found under the Telegraph head. No speaker yet, at Washington or Albany. The correspondents of the New York papers discover warlike symptoms in recent diplomatic correspondence with Great Britain. They are prone to such discoveries. Yesterday was probably as cold a day as ever was known in this State, the mercury, in different places, ranging from 20 to 30 degrees below zero. No news from Madison last night, the wires being down.

OUR MILWAUKEE BANKS.—We publish to-day the Semi-Annual Report of two more of our City Banks. They speak for themselves and show how sound is the general condition of these Institutions.

The Contest for Governor.

We learned last night, by passengers from Madison, that Mr. Bashford having taken the oath, as a preliminary step to the contest for the Gubernatorial Chair, is now preparing and will soon file his information in the Supreme Court, against the acting Governor. That information will necessarily contain a statement of the specific grounds on which Mr. Bashford claims the Executive Chair and when filed will be laid before the people. If we are correctly informed, it will disclose the most astounding series of frauds upon the election franchise to be found in the whole history of Elections. We learn farther, that in view of the great doubt which hangs over Mr. Barstow's title to the office of Governor, it is not improbable that the Legislature will adjourn until that question is settled.

The Doings in Madison.

In compliance with the invitation of the citizens of Madison, five of the military companies of this city, to-wit, the Dragoons, Artillery, Light Guard, Riflemen and Yagers, with the Major General and Staff of this Division, and a number of civilians, left here early Monday morning, to attend the inauguration of the State officers at Madison. The train was a very long one, the cars over crowded, and the progress slow. The air, too, grew keener as the train proceeded westward, and when, at 4 P. M., the cars reached Madison, the thermometer marked 16 degrees *below* zero. To this Siberian atmosphere, the military were exposed for an hour and a half, marching through the streets of Madison, giving a passing salute to the newly inaugurated State officers and the acting Governor, Mr. BARSTOW, and finally dismissing on the Capitol Square. Many of the men suffered from the intense cold, and not a few had their ears, fingers and feet more or less frozen. There was delay, too, and misunderstanding in regard to quarters, and for an hour or more, some of the companies, though chilled to the very marrow, were wandering about Madison, looking in vain for board and lodgings. By nightfall, however, the greater part were provided for, and those who could not get into the hotels were most kindly and hospitably entertained in private houses. In the evening, a grand ball was given at the Capitol, which, being free to all comers, was uncomfortably crowded, and by no means brilliant. While the ball was in progress, a large number of the Light Guards called upon Gov. BASHFORD, to pay their respects, and had a very pleasant interview with him. On taking leave, they gave nine cheers, with a will, for the Governor elect, COLES BASHFORD.

The Military returned to our city yesterday afternoon, the train being several hours behind-hand, and in consequence of the extreme cold weather gave up their proposed parade in honor of the Eighth of January. So far as we could learn, all the Companies conducted themselves with great propriety at Madison, and left a very favorable impression upon their entertainers.—This was particularly the case with the Milwaukee Light Guard, who were complimented on all sides for their neat and soldier-like appearance, and who endured the bitter cold like veterans. In their behalf, we desire to make special acknowledgements to Mr. CHADWICK, of the American House, and to Major HOOD, Mr. ROTH, Col. ATWOOD, Mr. N. W. DEAN, and the Hon. WM. HULL, for special attentions and hospitalities bestowed upon them.

KNOW NOTHING DELEGATES FROM NEW YORK.—The Albany *Express* says that, according to the best information in its possession, the delegates elect from the State of New York to the know nothing national convention stand about as follows: For FILLMORE, 17; for LAW 4; and that there is every reason to believe that Mr. FILLMORE will go into the convention with 25 out of the 32 votes from the State.

THE MAINE LAW APPROVED BY THE QUEEN OF ENGLAND.—A copy of the Order in Council at the Court of Windsor, has just been received at the "Prohibitionist" office, Albany, wherein Her Majesty gives her official sanction to the Prohibitory Liquor Law of the Province of New Brunswick, and directs that the Governor of the Province, and "all other persons whom it may concern, are to take notice and govern themselves accordingly." The law took effect 1st January, 1856.

LATE.—The Buffalo *Express* of January 3d reached us a day or two since, containing the President's Message. We gave it to our readers on the evening of the 1st.

City Items of Importance.

Two items of importance to the city have taken place within a week; one is the opinion of the City Attorney in relation to the taxation of farming lands lying within the city limits, but not yet laid out into city lots, at four mills on the dollar; the opinion as delivered in the Common Council Room on Saturday night, was to the effect that such lands were only subject *by law* to the four mill tax, and we believe the statute and the city charter sustain this opinion.

The other item was the suit of Chapman *vs* the city of Milwaukee, which, in reality, was an action for damages claimed to be sustained by the plaintiff on account of the obstruction to a navigable stream—the Milwaukee River—which prevented vessels from discharging bark, &c., at plaintiff's tannery, which is located above the Cherry Street Bridge.

The first item, the taxation of lands lying within the city limits at only four mills on the dollar, must strike every man as unjust, these lands are a part of the city, although there may be no streets as yet laid out in or through the lands. The opinion of the City Attorney was to the effect that the lands must be *platted, laid out into city lots, and recorded*, before they could be taxed as city lands. Chapter 41, of Revised Statutes, and the City Charter, seem fully to sustain him.

We cannot help thinking that if these lands, lying within the city limits, were all of them taxed as any other real estate in the city, it would tend to equalize the taxation of the city, and men would be taxed on their property alike, and not as it is, now, one paying six per cent. taxes and the other four mills; the latter on property rising in value faster than the former. The Charter should be so amended that next year, every foot of land within the limits of this city should be taxed according to its value, and not as it is now, that the enterprising inhabitants of this city who platted their lands, have built upon them, improved them, and have helped to make the city what it is, should *alone*, (or nearly so) pay the taxes necessary to support its government.

Large tracts of land within the city limits, are owned by individuals who never intend to improve them, but simply to hold on to them until they have attained their very highest value, and then sell them to others, who will improve them. The former pay four mills on the dollar, the latter will have to pay six per cent. taxes. The owner of a small lot and tenement on the flat, worth perhaps $2,000, pays his six per cent. taxes—the man who owns a quarter of a section on the hill, worth perhaps from $50,000 to $100,000, and rapidly rising in value besides, pays four mills on the dollar. The former is city property, and is assessed and taxed as such—the latter, *not having been platted and recorded*, is and has to be assessed and taxed as farming lands. Such is the law. But who can say it is a just law, or one that tends to the interest of the city? In our humble opinion, it is a system of taxation as unjust and detrimental to the rights of the public as ever existed under a monarchy, and can neither be reconciled with reason or sustained by logic. We believe that some of these views are entertained by at least one member of the Common Council, as we observed that a resolution was introduced and unanimously passed, instructing the City Attorney to report to the Council *of amendments that he might deem necessary* to be made to the city charter, at the coming session of the Legislature, and we hope a general and equal taxation of all lands alike, will be one of them.

The other item to which we refer is the obstruction of the Milwaukee river by the Cherry St. bridge, or, rather, by the Cherry St. bridge having no draw in it, although there is every reason to believe that when the bridge was built the authorities had it so constructed that a draw can be made to it with but trifling expense.

As the suit between Mr. Chapman and the City has terminated, is out of Court, and, as there is not, that we are aware of, any other suit pending of a similar nature, we may be permitted to write freely without the fear of prejudicing the rights of any person. First, then, as to the navigation of the Milwaukee River in ancient times. Mr. Samuel Brown, who has resided in Milwaukee (twenty-one years,) stated on the witness stand "that twenty-one years ago last December, I sounded the Milwaukee River from its mouth up to where the dam now is; and up above Cherry St. bridge the water was 9 feet and upwards in depth." The witness further testified to having formed one of a party that went up the river on the steamer *Detroit* on a pleasure trip (in 1837 we believe) and that boat went up above Chapman's Tannery, or where that now is, about 100 or 120 rods, and that when up there, the steamer winded and found nine feet of water, that the river is, if anything, wider there than elsewhere, which was the reason assigned by the Captain for turning round at that point. Mr. Brown also alluded to several vessels being built up there and launched, from opposite an Indian improvement; the *Solomon Juneau* was one of them, and was launched, the witness thought, in 1837. A vessel drawing 7 feet of water could go up to Chapman's Tannery. Within ten days after witness came to this city he started with a pole and hatchet, cut holes in the ice and sounded the river the whole way up from its mouth.

This shows that "Sam" was an early settler of this city, and also that he found a *navigable* river running through the site upon which our healthy and prosperous city now stands, and not only does it show that, but it shows that before "Sam" had even found Milwaukee; the liberal Frenchman, Solomon Juneau, was himself an old settler and resident upon its banks, and has lived to see upon this river a city grow up, teeming with the busy life of 35,000 people, while the Court House square, &c., denote the generous heart of the early French settler, who was elected the first Mayor of the City of Milwaukee, and whose name will last as long as the city stands, and be remembered with gratitude till the last brick has crumbled.

Another witness on the stand testified to the depth of the river from Cherry Street Bridge up to the Tannery; and that its depth varied from eight to nine feet, and that opposite the Tannery it was upwards of nine feet.

Now whether it is policy on the part of the city to impede or obstruct the navigation of this river or not, we are not prepared to say. But this much we do say; that if next Spring a draw be made in the Cherry Street Bridge, it will leave the matter free for individual enterprise; buildings will go up where now none stand: Warehouses will be built where now nothing but grass or bog can be seen; it will give more room for shipping: open a larger field for enterprise; the river will be dredged out; property will increase in value; there will be more taxable property on the assessment roll another year; in fact, and in deed the city,—if it open this bridge voluntarily,—will be according to a large number of people their rights, and it will only be doing—of its own accord, an act of justice to the public, of interest to the welfare of the city—that which it will otherwise be made to do by a Court of Chancery—stopped from further obstructing a navigable stream J. W. H.

An ingenious hatter of Paris, has constructed a house of felt, made out of 24,000 old hats. This house contains parlors, dining and bed rooms, and a kitchen. It is erected upon a platform, upon the plains of St. Denis, and can be transported from place to place.—*Exchange.*

Pooh! That is nothing to what we do here everyday. Lumber is cheaper than hats, so that we use the former material, but we move our three story buildings all over our city, at will.—Only a few days ago, a part of Wettstein's hotel on Market Square, went up town, and we have not been able to find it since.

THE CALIFORNIA TRADE.—The U. S. Special Inspector of Customs at Panama has prepared a statement of the valuation of merchandise shipped from the port of New York to San Francisco, across the Isthmus of Panama, from the 1st of September, 1854, to the 31st of October, 1855. The total is $2,755,700; $2,438,333 domestic goods, and $317,367 foreign.

La Crosse and Milwaukee R. R.

The La Crosse and Milwaukee Rail Road has now finished and in operation fifty-three miles of track, on which trains are running regularly twice a day, viz: from Milwaukee to Horicon; by the end of this month, should the weather be favorable, the track will be laid eleven miles further, or to Beaver Dam, making 64 miles of road in active operation.

In addition to the road having reached Horicon on the first of this month, January 1856, and the further extension of it to Beaver Dam during the month, with good weather, or by the middle of February with bad weather, the Company are receiving, and will have on the track by the end of January, three more Locomotives, one for passengers, and the other two, very heavy freight engines of twenty-seven tons each. The passenger locomotive is from the Patterson Works, New Jersey, and the freight locomotives from the Lawrence Works, Mass.; the latter have been tried on the Boston and Maine R. R., and will draw all that can be hitched to them; they are of the same kind as those in use on the Baltimore and Ohio Road, with the improved cut offs, and other improvements. In addition to the Locomotives, there are on the way, some of them already in Chicago,—ten box cars, two first class baggage cars, and five passenger cars; the receipts of the Express Co. have been received for all of them, and some of them will be upon the track by the last of this week.

Two of the passenger cars are spoken of as being the best, and the most elegantly fitted up cars yet purchased for a western road, and a gentleman of great Railroad experience who saw them, and who has travelled in England and France, writes to this city, stating that "nowhere has he seen as good or as elegant passenger cars, as the two now on the way to the La Crosse Rail Road." The passenger and baggage cars are from the respective works of Eaton & Gilbert, Troy, New York, and St. Albans, Vermont.

The value of the rolling stock added to the road during the first month of 1856, may with safety be computed at $68,000. and the managers will still further add to the numbers of Locomotives, Cars, &c, before the coming spring; the number already on the track, and those on the way from the East, will be as follows: 11 Locomotives, 90 box cars, 70 platform cars, 10 passenger cars and 2 baggage cars; the total value of the rolling stock of the road at the end of the present month, will be *a quarter of a million of dollars*, or about $253,000.

We are not able, without a great deal of trouble, to estimate the value of the different Depot Grounds in this city and at the villages through which the road already passes, but the amount is large; and the wisdom of early selecting large lots of ground for depot and other purposes in all the villages and cities through which the road is already run and through which it will yet be laid, becomes more manifest every day, in the increased value of the land itself, the villages and cities rapidly increasing their population and improvements, as the road already leaves them or is being hastened towards them, and the value of lots lands owned by the Railroad company increasing in a like proportion.

The securities of the road cannot be overrated; they are principally the city bonds of this city, and the farm mortgages in the country. It would be difficult to imagine a more safe security than the farm mortgages held by this company. Taken—the most of them—for ten years, and upon the assessed value of the farms at the time they were taken, (which was three years ago,) the farms have been improved by their owners every year since, and will continue to be. This, together with the advance or rise in the value of lands in the counties in which these mortgages are laid, make them, without any exception, the very best security known. The lands have more than doubled in value since the mortgages were given, and the increase still continues—the principal cause being that the railroad is either already across or near the farms, or in progress towards them, furnishing the facilities for a good market for the products of the farms—the mortgages thus building the rail road, and, in a spirit of reciprocity, the railroad building up the value of the farms.

The President, Superintendent and Directors are entitled to great praise for the management of the affairs of this road. The books show a healthy state of things, and the means and available securities in the hands of the Company for the further extension of the road, are ample, and we may confidently expect, that by the fall of 1856 the La Crosse Rail Road will have passed Fox Lake, Dodge Co., woke up the Welchmen in Cambria, and Columbia County, and thence be sending its locomotives on an air line towards Portage City.

Fun in California—The Storming of Sevastopol.

A correspondent of the N. Y. *Times* furnishes a graphic description of the celebration, by the English, French and Sardinian residents of San Francisco, of the storming of the Malakoff, and capture of Sevastopol. An immense tent was erected in the South Park, and, says the writer:

> In the centre of the interior was a raised platform, for the accommodation of distinguished personages and guests, in the midst of which, just foremost Consul Dillon, a roasted ox loomed up, and a few feet distant a representation of the Malakoff tower, constructed of pound-cake and confectionery, some ten feet in height, sugar cannon frowning from its battlements, and a large supply of ammunition was distributed about, all of the same material. At 12½ o-clock, the procession entered the tent, and in five minutes every seat was occupied, and the work of destruction commenced. Roasted pigs, ducks, geese and viands, disappeared with a rapidity that would lead one to suppose the Allies had not eaten since Sevastopol fell; for a time the clatter of plates and shouts for drinkables were stunning. The Frenchmen pitched into claret, and the English into "arf and-arf." As the wine went down, their enthusiasm rose, and when the time came for drinking toasts, nearly every man of the three thousand was more or less *tight*.—An attempt was made to command attention, but the Frenchmen were wild and the Englishmen red in the face—every one "hollered" order, frantic little Frenchmen jumped on to benches and yelled out "*Asseyez vous.*" Those who fancied they spoke English sung out "Seete down." Every man yelled "Order—sit down," which had the effect to make everybody jump up. Some began to grumble at the scarcity of the fodder—some wanted more wine—another proclaimed that the roasted ox was too ancient.—They went from bad to worse, and Babel would be considered painfully quiet in comparison.—There were lots of the unsympathizing population present, termed the "Boys," who were bent on mischief. The first step in the *finale* was the shying of a tough old goose at the Malakoff.—It was fired with good effect, and instantly the air was darkened by the shower of roasted pigs, ducks, loaves of bread, claret bottles, hats, bones and fragmentary edibles, *en route* for the devoted Malakoff. The scene that followed beggars description. Consul Dillon and the distinguished guests were nearly extinguished and buried beneath the ruins of the tower and the falling missiles. The original Malakoff itself never could have stood such an attack. When it fell, there was a rush to plant the French flag over the ruins; but the Englishmen raised theirs over it, and a sanguinary struggle ensued for the mastery. In the midst of the row, some of the engine-boys, with Charley Duane at their head, scaled the tent, cut a hole through the top, and shoved the American flag up through, where it waved over all others, and the attempts of the French to dislodge it resulted in several knock-downs.

There was more of it, but the above is all we have space for.

THE PEOPLE'S VICTORY IN KANSAS.—The Kansas *Tribune*, published since the retreat of the Missouri vagabonds, says in relation to the treaty of peace:

> This adjustment was accepted by the enemy—not because it was satisfactory, but because it was the people's ultimatum, and the invaders dare not assume the responsibility of an attack. The people declare their willingness to obey the laws *only* on the condition that they are not to be asked to recognize the base and fraudulent enactments of that villainous body known as the Kansas Legislature. This they always did. They never repudiated the laws of Congress nor the authority of its officers. The enemy demanded Sharp's rifles and obedience. The demand was treated with contempt.
>
> The conqueror of a country makes the enemy lay down their arms; but we stood to arms until the enemy had left, amid the firing of cannon and the exultations of our people. We have indeed achieved a great victory over an insolent and tyrannical enemy.

RAMBLES IN EUROPE—NO. 55.

In a dilemma from which Yankee invention affords no relief—A Dutch village described by one who knows and feels—Ratisbon—Its Rathhaus and torture chamber—The Bridge—The Valhalla—Straubing and the tomb of poor Agnes Bernauer.

PASSAU, Oct. 12, 1855.

Ratisbon has much to interest the traveller who is fond of relics and antiquity. Of its churches and walls, its towers and battlements, dating as far back as the time when it was under the Romans, I shall say nothing, for I fancy my readers are getting tired of reading about them. Yet to me, such places possess deep interest.

I will, however, mention the Rathhouse, as it is called, being an old, irregular pile of ruins, in which the Diets of the German Empire were held for centuries. The new one joins it, which was built some three hundred years since. Down beneath the ground, under the old portions, are shown the cells and torture chamber, with its horrid apparatus, just as it was used in former times. The descent and windings, together with the dungeons, are very similar to those seen after passing over the bridge of sighs, which I described in a former letter from Venice. Wicked rulers and tyrants in all countries, have ever been ingenious in their devices and plans for venting their malice and cruelty upon their enemies.

A little girl who had picked up considerable English, and who seemed very intelligent, took me down into these cold and loathsome dungeons. With lights in our hands, we made the rounds, sometimes entering, and at others only looking in, the passages being so small that it was difficult to get in without crawling on the hands and knees. Previous to going into the torture chamber, which possesses the most interest, I entered one for the higher grades of criminals, by stooping considerably. It is some seven or eight feet square, lined with timbers, something like our jails, without any place to admit air or light, and containing only one piece of furniture, a block for the unhappy victim to lay his head upon. In the ceiling above is a small aperture, to which there is a pipe communicating with a room above, to enable spies and listeners to hear any word that might be unwarily uttered or sighed by the ill-fated occupant. This room, with some twenty others, were for criminals of a higher character. Beneath these are other dungeons, or vaults rather, having no mode of entrance except through an iron grated door, on a level with the floor, which is strongly secured by bolts and chains. Those that passed this dreaded portal never again saw the light of day. They either were suffered to pine out, in this living tomb, the small balance of a miserable existence, or were soon dispatched. There are only three or four of this kind, but I was satisfied on seeing one.

But I passed on through intricate passages, and small double-bolted iron doors, until I came to the torture-chamber, which was large and high, giving ample space for the inquisitors, executioners, surgeons' victims, and instruments of torture. On the outside is a stone bench from which, through an opening in the wall, the helpless captive could see their infernal operations, perhaps upon a father, a brother, or some near friend, and hear his agonizing shrieks. The object of this was to cause a confession. The imagination will not be slow in conceiving what these instruments were. They were known by different names given to them by the tormentors. The first I saw was what they facetiously called *der jungfrauenschoor*, or the maiden's lap. This was a high armchair, the bottom of which is full of small sharp spikes of wood, on which the victim was obliged to sit with ponderous weights in his lap, and others hanging from his feet. Another was called *der gespickte hase*, the larded hare, and consisted of a horizontal rack, resembling a long narrow bedstead, on which there was a roller set with iron spikes over which the victim was drawn with ropes attached to a windlass until life was almost extinct. Another was called *die schlimme liesel*, or bad bess. This was a sort of upright frame of wood with a windlass attached. The prisoner's feet were each confined to iron rings in the floor, and then with ropes attached to the wrists he was drawn up until the cracks were heard of the bones leaving the sockets, when he was lowered down. Another method was to attach heavy weights to him, and then with his arms bound behind his back, raise him to the roof and then let him suddenly fall to within a few inches of the floor. This would start every bone in the body.

Another called *rutschbahn*, or slide, was a species of ladder with moveable triangular rounds over which the victim was drawn until every vertebrae of his naked back was grated and the flesh torn and bruised.

Another kind of refined cruelty was named *der Spanische esel*, or the Spanish Ass, being a wooden horse, with a sharp back, on which the victim was compelled to ride. There were many other implements of torture and cruelty but the above are sufficient to show what demons there were in those ages, who were in power, and who administered what they called law and justice.—These instruments are just the same now as they were when used, even to the very ropes and weights. For the credit of the place and humanity, it is proper to state that they have not been used for nearly a century and a half.

From the top of the Cathedral an excellent view of this old city is had. The ascent is made by what is called *der esels thurm* asses' tower, adjoining it on the north. It received its name from the fact that all the materials for the upper part of the building were carried up on the backs of asses. This winding inclined plane is similar to the ascent to the dome of St. Peters Church, Rome.

At Ratisbon is the only stone bridge on the Danube clear to the Black Sea—with the exception of an iron suspension bridge at Pesth, the others are all temporary ones of timber, removed in the fall on account of the ice, together with a few bridges of boats. This stone bridge at Ratisbon is some 60 rods long and was built 725 years ago.

From Ratisbon to this place there is nothing to arrest the attention of the traveller particularly. I would liked to have called and examined the Valhalla, a modern building erected on an eminence three hundred feet high on the left bank of the river, about six miles below the former city, by the late King Louis, of Bavaria, but the boat did not stop. It was built of nearly the same dimensions and after the model of the Parthenon at Athens, as a national monument and temple of fame for Germany. It contains busts, monuments and statues of the most eminent statesmen, poets, musicians, scholars, and artists of the Empire.

After a few hours ride, the tall, square tower of the ancient city of Straubing, surmounted with its five-pointed spires, made its appearance. Near the river bank is the old church of St. Peter. In one of the chapels, planted around the church yard attached to the church, a tomb-stone is pointed out as the one erected to the memory of the beautiful and unhappy Agnes Bernauer, whose memory and ill fate are still held in lively remembrance by the common people.

Long, long ago, Albert son of Duke Earnst, of Bavaria, while at a tilting match at Augsburg, saw this young girl, the daughter of an humble citizen, who by her beauty and virtue won his heart. They were secretly married. But the intelligence soon reached the ears of his stern father, who had already meditated a marriage of this son to some noble family. His wrath knew no bounds. On his son's absence one day he caused the bride to be arrested, tried on a false accusation and condemned. Amidst the lamentations of the people she was bound and cast into the Danube from the bridge. By some means she managed to free herself from the cords that confined her arms, and uttering the most heart-rending shrieks for help and mercy, had nearly reached the bank, when an unfeeling wretch caught her by her long black tresses, dragged her back into the current and held her under water until she was dead. The husband on his return maddened by the news, hastened at once to join the deadliest foe his father had, Louis the Bearded, and was the foremost in battle against the murderer. This was in 1436. More than a hundred years afterwards a tournament was held at Ratisbon to maintain the innocence of the beautiful Agnes Bernauer.

BREADSTUFFS.—The two largest cargoes of breadstuffs that probably ever left the United States, were cleared from New York on the 23d ult. One was the ship *Orient*, for Falmouth and a market, with 1,031 barrels of flour, and 63,000 bushels of wheat, weighing 4,318,076 pounds net, equal to 1,926 tons. The other was the ship *City of Mobile*, for Liverpool, with 1,521 barrels of flour, and 69,800 bushels of wheat, weighing, net, 4,909,900 pounds, equal to 2,191 tons. The total value of these cargoes, at $9 per barrel for flour, and $2 per bushel for wheat, is $315,359; total weight 9,227,976 pounds. The freight money of both ships is but little short of $[illegible].

☞ The London papers speak of a ball of fire which on the evening of the 20th ult., appeared in mid air, and darted along in a straight line over about a third of the sphere, leaving behind it a comet-like tail. It then burst like a rocket but without noise, falling like a shower of sparks, which however instantly disappeared.

The Public Square.

At an adjourned meeting held at the Niagara Hotel in the Fifth Ward, on the 7th day of January, 1856, for the purpose of hearing and acting on Reports from the Committee on Public Square and Market Squares,—Wm. P. Merrill, J. Sherwood, H. Mabbett and John Rosebeck, Committee on Public Squares—reported in favor of an act of the Legislature, authorizing the issue of not to exceed Fifty-Thousand Dollars Ward Bonds, payable in fifteen years, for the purpose of purchasing and defraying the expenses of fitting up said Public Square,—and the appointment of five Commissioners in said act for the purpose of selecting and negotiating for the grounds necessary for a Public Square—and that the act be submitted to the Electors of the Ward, before the same shall become a law.

J. Humphrey, H. Millman, Geo. Barber, M. Delany and D. C. Reed, Committee on Market Square, reported in favor of an act of the Legislature, authorizing the issue of not to exceed Fifty-Thousand Dollars Ward Bonds payable in twenty years, for the purpose of purchasing, not to exceed one block of ground for Market Square, and to erect thereon a Market House; and the appointment of five Commissioners in said act, for the purpose of selecting and negotiating for grounds for said Market Square. Said act to be submitted to the electors of the ward, before the same shall become a law. Reports of the Committees adopted, and recommended to include Public and Market Square, in one act by the Legislature, and that Committees as aforesaid be named as Commissioners in said act.

It was also voted that the Aldermen of the fifth ward be requested to appropriate sufficient money out of the ward fund to defray the expenses of drawing up the bill, to be acted on by the Legislature as aforesaid.

The following resolutions were also adopted.

Resolved, That the member of Assembly be requested to procure the passage of an act by the Legislature, authorizing the levying of a special tax of one per cent for ward purposes.

And, whereas the Gas Company of the City of Milwaukee have such a contract with the city, that renders it quite questionable whether they are obliged to extend the gas pipes any farther than may suit their own convenience, and as they have not furnished gas to a very respectable commercial portion of the city, and still refuse to do so, unless large subscriptions to the stock of said company can be obtained in that locality, and by such refusal have forfeited the exclusive right to furnish gas to the Fifth Ward, therefore, be it

Resolved, That Wm. A. Hawkins, our Representative, be and hereby is instructed to use all honorable means to secure the passage, through our Legislature, of a charter for the erection of gas works in the Fifth Ward of the City of Milwaukee.

Resolved, That it is the sense of this meeting, that the citizens of the fifth ward are unanimously opposed to further proceedings on the so-called Straight Cut. Because, in our opinion, the funds already expended, have in a great measure been thrown away, and believing, that to complete the same will require the further expenditure of not less than $200,000, and the commerce of our city will soon require the whole river front from the straight cut to the old Harbor,—and in our belief if the straight cut is ever completed, that during severe storms the water will back up from the straight cut to Walkers Point Bridge and overflow the ground on each side of the river, thus rendering a large amount of property now being improved, unavailable, and believing that which is of interest to a portion of the city, is for the interest of the whole city; therefore—

Resolved—That we would recommend to the Aldermen of the Fifth Ward, to use all honorable means to have the work on the straight cut suspended, and the balance of the Harbor funds applied in repairing and extending the old Harbor.

Resolved—That the city papers be requested to publish the proceedings of this meeting.

DAVID MERRILL, Chairman.
H. M. THOMPSON, Sec'y.

Post-Office Department.

The Report shows a net increase of 862 Post-Offices during the year ending 30th of June, 1855—the whole number of offices at that date being 24,410, and on the 30th of November, 24,770. On the 30th of June last there were 7,053 mail routes, at an estimated length of 277,908 miles. The total annual transportation of mails was 67,401,166 miles, costing $5,345,238. Compared with the service of the year previous, there is an increase of 3,377,025 miles of transportation, or of about 5½ per cent., and of $675,221 cost, or about 14 4-100 per cent. The increase by railroad service is 3,481,122 miles; by modes, not specified, 3,575,188 miles—while the transportation by coaches is less by 2,325,628 miles, and steamboat, 1,335,636. This change results mainly from the reletting of contracts in many of the southern and western States and Territories. On the 30th of June last, there were in service 318 route agents at a compensation of $235,170 65-100; 25 local agents at $19,528; and 631 mail messengers at $100,471 65, making a total of $351,970 30 to be added to the cost of transportation. This makes the total amount for the current year, $7,324,980 30, which will probably be increased to $8,000,000 by new services and routes. The cost of foreign mail service, not included here, amounts to $311,467. The Postmaster states that on 3d April last, he concluded a contract with Mr. James F. Joy, to convey the mails from Cairo to New Orleans and back, daily, he having full power to negotiate such contract on behalf of the Illinois Central Railroad, but though the latter used every exertion to comply with their engagement, they failed to do so from the high price demanded of them by the owners of the boats on the line, and the route was accordingly advertised for reletting.

The new distribution schemes have been completed, and each distributing office has now alphabetical lists of all the counties in all the States except California. In accordance with the late act of Congress, suitable measures have been adopted to put in operation a new system of registering valuable letters, but it has not been sufficiently long in operation to be able to form a just estimate of the success of the plan. The Postmaster, has, however, found abundant proofs of its usefulness, and of the necessity of bringing it to perfection.

The expenditures of the Department for the last fiscal year amount to $9,968,342, and the gross revenue derived from postages (inland and foreign) are $6,642,136 13, which, adding the annual appropriations made in compensation of the mail service to the Government, by the acts of the 3d March, 1847, and 3d March, 1851, amount to $7,342,136 13. Deducting the balance against the United States due to Foreign Powers, for Postal accounts, from the above, the actual gross revenue of the Department for the year ending June 30th, 1855, will be $7,335,177.—The gross revenue of 1854, after deducting foreign balances, amounted to $6,816,651 91, making a difference in favor of 1855 of $518,519 10. The excess of expenditures for 1855 over 1854 is $2,626,206 16. This excess is attributed partly to the increase in compensation to Postmasters and Clerks of office, and partly to the increase of expenditures for transportation, owing to the great extension of railroad service. The condition of the Department goes to show that the rates fixed by the acts of 3d March, 1851, will not enable the Department to sustain its own resources.

Another cause of this excess of expenditure is attributed to the letters and documents carried free of charge for members of Congress and others, and to the amount of printed matter conveyed at low rates. The Postmaster General thinks that the reduction of 50 per cent. for advance payment on newspapers is wholly without justification. He also recommends that the prepayment by stamps be made compulsory on all kinds of matter. The expenditure of the Department for 1856 is estimated at $10,199,024, and the means available for the same $9,010,873, leaving a deficiency of $1,188,151 to be provided for.

Reference is again made to the fact that the Collins line of steamers receives from Government $858,000 for 26 trips, while the British Government paid the Canard line $866,700 for 52 trips, which, in the opinion of the Postmaster General is amply sufficient. Measures have been recently taken to lay before the Mexican Government proposals on the subject of a Postal Convention. The Report alludes at some length to the Last Report of the Postmaster General of Great Britain, and concludes by deprecating the denunciation of the Department for mistakes carelessness or neglect, instead of advising it of the wrong committed and leaving it to apply the remedy.

☞ The luxury of a divorce is so expensive in Canada, that none but the wealthy can indulge in it. The consequence is, that the restive victims of ill-starred marriages, who cannot afford to pay $2000 for relief, are compelled to "grin and bear it," or resort to the States for the dissolution of the irksome tie. The courts of the border counties in New-York are driving quite a stiff business in converting the marriage relations of the Queen's subjects into their own original element.

A GOOD PLACE FOR CLERGYMEN.—The Nevada (California) Journal, received by the last steamer, says.—"It is computed that there has been paid for the support of churches and ministers in this city, during the last year the liberal sum of $35,-000.

The Outrage upon the Ballot Boxes in Kansas.

The N. Y. Tribune's Leavenworth correspondent gives the following account of the outrage upon the ballot boxes at that place on the 15th:

LEAVENWORTH, Dec. 17.

I watched the emigration of these Border Ruffians for some time, and without the slightest wish to exaggerate I do not think I ever before saw so many cut throat looking villains in one crowd. The groceries were thronged, and the spirit of evil commenced its works of inspiration. Hard featured and whiskey flavored, unkempt, unshaved—they evidently belonged to "the great unwashed and unterrified." With red blanket- and blue blankets and dirty white blankets, and no blankets at all; with "garments dyed in mud," and of a home spanish look, and many of them with long Western rifles, they swaggered about, cursing the "Abolitionists" generally, and a few persons about Leavenworth in particular.

About 1 o'clock I went to dinner. I had learned that the parade and disbanding were to come off at 2, and fancying that nothing would happen before that time, went to my hotel, but I was mistaken. The Clerks and Judges of Elections had been closing the polls to go to dinner, all of them had left the voting room but three.—The voting had been done at a window, and to this the crowd I have been describing made a rush; they were led on by two prominent Pro-Slavery men who live in the country a few miles out, the one an Irish Roman Catholic named Dunn, the other was Judge Payne, who was elected Judge of Leavenworth County by the Bogus Legislature, and who is evidently a Southern man, and just as evidently not afflicted with any kind of religion. The window was driven in, glass, sash, frame and all. Dunn got on the sill and commenced a delectable formula, thus: "In the name of 'law and order,' I demand that ballot box!"

"No d——d parleying," cried Payne, cocking a six shooter and presenting it at the clerks. "Take that box, G——d d——n it take the box!"

Two or three persons in the room at the time it was attacked, got off without injury, having arms; the third, a man named Wetherell, one of the clerks of the election, and who was unarmed, tried to take away the ballot box, and make his escape by a door opening on another street.—Closely pressed, he threw the box under a counter, and as he emerged into a muddy street was knocked down by clubs. Not less than 30 men were around him and jumping on him. One man had an ax raised to strike him, if he could have done so for the crowd. It was the work of an instant, and immediately some few Free State men who had not been frightened off, interfered. The first who interposed was a Pro-Slavery man, who seemed to have a trifle of the Samaritan in him; but a young man from York State, named Anthony, and a man named Brown, both good, tried Free State men, cocked their pistols and rushed forward, as did some others. Wetherell was raised and carried home; and although he received some severe injuries, I am happy to add he is recovering.

The mob having got possession of the ballot box and poll books, paraded them off in triumph.

From Washington—The Factionists in the House.

Editorial Correspondence of the N. Y. Tribune.

WASHINGTON, Thursday, Jan. 3, 1856.

Another day's struggle in the House has left it disorganized as it found it—another (the fifth) of the Session draws to a close with no promise of any result. The House is still incapable of doing any of the business devolved on it by the Constitution and the Country; the Senate necessarily awaits the organization of the House. Foreign War may lower as intestine strife so recently did—but the House remains headless, unqualified, incompetent for good purpose. Why so? I answer:—

1. Because several Members elected as opponents of the policy respecting Slavery Extension embodied in Douglas's Nebraska Bill have betrayed their trust, proved false to their express or implied pledges, and vote for one or another candidate who stand expressly pledged to acquiescence in or active support of the Douglas Nebraska policy; and

2. Because men who still claim to be Anti-Nebraska vote steadily against the candidate of the great body of the Anti Nebraska Members, and so prevent a choice; and

3. Because men who vote uniformly for Banks, constantly intrigue to defeat him; nightly caballing against him, threatening to bolt, swearing they will vote for him no longer, and giving secret and confident assurances to his openly and manly adversaries, that the Banks vote will soon break up and exhorting them to hold out against a Plurality rule or any course which may result in his election.

Such are the facts as I know them, and as the country should understand them. Had all the men voting for Banks in good faith supported him, he would have been chosen days ago. He has not been, simply because some men who were morally bound to support the Anti-Nebraska candidate would not, while others who have pretended to support him, secretly ploted and connived to defeat him. Night after night they in secret conclave resolve to bolt next day; but when the time has arrived to fulfill their resolve their hearts fail them, and the resolves they have caused to be telegraphed to distant points are falsified by their acts. So the Democrats who want the House organized are kept voting solid against a plurality rule, in the daily hope that the Banks column will speedily break and give them a chance to elect Orr, if not Richardson.

In view of these facts ought our friends give way and abandon Banks?

If it were merely a question between three conflicting parties, no one having a majority, I would say do the best that is practicable, and do not waste time in chase of impossibilities. If there were objections to Mr. Bank's qualifications, I would be the first to insist that they be well considered. If it were objected that he holds extreme opinions, and so is obnoxious to men whose votes are necessary, I should consider that a reason for reviewing our position. But it is not pretended by a single member that Mr. Banks is poorly qualified for Speaker—it is not even asserted that any other member is better qualified. That he is the first choice to-day of a very large majority of the Anti-Nebraska members is undoubted; his opponents can not call nor attend a Nominating Caucus held under a pledge that its decision shall be conclusive. And so far as he is from holding an ultra position, that there are just about as many who object that he is not reliable and trustworthy in his opposition to the Douglas policy as there are who base their hostility to him on his alledged "fanaticism," which they deduce from the fact that he represents a rural district of Massachusetts.

Should Mr. Banks be dropped and some other man of our side elected, that man would owe his elevation to the course pursued by Messrs. Dunn, Scott Harrison, Scott, John Wheeler, &c. No matter what he might profess, he would be their Speaker, elected because they kept the House disorganized till the majority were brought to surrender their choice. He would be morally obligated to give them influential positions on Committees. Is this desirable?

Whatever the country thinks on this subject of dropping Mr. Banks and taking up some man whom Dunn & Co. will vote for, I urge that its sentiment be promptly and clearly expressed.—Let every citizen who has an opinion on the subject embody it in a letter to his Representative, wherever it may be practicable to express the prevailing sentiment through a Public Meeting—whether called on purpose or not—let that course be taken. *Let Congress speedily hear whether the Anti-Nebraska voters throughout the country want Mr. Banks dropped now or sustained to the end.*

A New Aspect of the Crampton Difficulty.

[Special dispatch to the New York Daily Times.]

WASHINGTON, Jan. 2.

The President to-day sent to the Senate the ratification of Minister Wheeler's treaty with Nicaragua, negotiated anterior to Walker's advent. It stipulates for the recognition of Nicaragua to the extent of all her claimed territory, including Mosquito, and regardless of the British protectorate. It also stipulates for the protection and fostering of American citizens' capital and enterprises in Nicaragua, covering, of course, any railroad or canal which may be projected. It was referred to the Committee on Foreign Relations.

Col. French is still here. If he does not leave the country by the steamer of the 9th inst., you may except that the Government will withdraw all diplomatic courtesy from him.

Should the United States Marshals be molested by Walker at San Juan, as French threatens, our Government will have ample grounds for driving him out of the country.

It is stated that England has sent full power to Mr. Crampton to negotiate a treaty abandoning her pretensions in Central America, if he is permitted to remain here. I seriously doubt the story, but, if it is true, it is merely a proposition to compound a felony, and our Government will not entertain it.

It is expected here that Great Britain will propose to submit the Central American question to arbitration, which is not likely to be agreed to by us, especially as at present there is no great European Power that we could trust, except Russia.

A CRAZY MAN, SURE ENOUGH.—The Chicago Democrat says that a crazy man named Peter Frenege, arrived in that city on Wednesday last. He represented himself as the Savior of the world, and said that his mission was especially to *save Chicago!*

DENTIST.
(LATE OF NEW YORK CITY.)

Has the Pleasure of Announcing to the Citizens of Milwaukee, that he has opened Rooms in the LAW BUILDINGS, WISCONSIN ST., FOR DENTAL OPERATIONS.

DR. F. introduces to this community the New Method of constructing ARTIFICIAL DENTURES on Platinum, called DR. J. ALLEN'S CONTINUOUS GUM WORK.

Combining cleanliness, great beauty, with life-like expression, strength, utility, and restoration of the form and contour of the face. This work is unequalled, and stands pre-eminently first, and will sooner or later take the precedence over the various kinds of Artificial Dentures manufactured in this or any other country. Specimens may be seen at his Rooms any time during office hours.

After twelve years experience in dental practice, Dr. F takes great pleasure in warranting all operations in the mouth, such as Gold Stoppings, Gold Plates, Teeth on Pivots, Teeth regulated, cleansed and extracted, etc.

Strict attention will be paid to all diseases arising from or in any way connected with decayed teeth. Also, counsel given in reference to the management of children's teeth. Advice and counsel given without charge.

Police Court, Jan. 8.

The only case of interest in the Police Court was the state of the weather *vs.* the people.

No arrests were made the night previous, no person was brought round for trial. When the Legislature is in session, an empty Police Court is a common occurrence, we had never imagined that the absence of the Military Companies would have the same effect; however, it may have been the cold weather that caused the vacuum.

Dr. Hitchcock's Lecture.—We are particularly sorry that the weather has been so inclement on the evenings of the lectures by our great Geologist as to have prevented full houses. This course of four lectures was undertaken as a distinctive feature of this winter's lectures, with the hope that instruction in such a science as Geology by its most learned American Professor would be found acceptable to a Milwaukee audience, and perhaps lead to other and fuller courses on this and other scientific subjects.

As it is, those who have been bold enough to venture out, have, we think, been well repaid for their attendance on the two lectures already given. Dr. Hitchcock's manner is remarkably simple, and to our taste, especially pleasing. He moves through his topics as he does among his drawings, in a manner utterly without affectation or pretension, and suggests the most startling theories, and the profoundest speculations, which have occupied his whole life, and given him a world-wide reputation, with the most astonishing simplicity, making every thing that he utters perfectly intelligible to every hearer.

And though he is plain in his style, his rhetoric is not plain for want of finish; but is, as it seems to us, eminently pure and graceful, and especially adapted to his subject, nor does he deem unworthy an occasional vein of quiet humor, or shaft of keen satire, as his audience of Monday night will recollect.

His subject for next Friday evening is "*Fossil Footmarks*," an almost new branch of Geological science, of one department of which, Dr. Hitchcock is himself the acknowledged father or head, and we may expect from him much that has never been written, and much that we can obtain no where else than from the lips of the Professor himself.

We trust that the weather will allow, or that whatever the weather, a good house may greet the Dr. on his return on *Friday*.

Destructive Fire.—Early yesterday morning a destructive fire occurred in the fourth Ward, on the corner of Cedar and West Water streets, and several buildings or tenements were destroyed. The buildings were all of wood, and the flames spread so rapidly, that at one time fears were entertained for the lives of some of the inmates. The engines were soon on the ground, and the firemen worked with a good will and succeeded in arresting the progress of the flames, and confining the fire to the corner.

The buildings were occupied below as small shops—a wagon shop, machine shop, shoemakers shop, &c; and the upper parts mostly by small and poor families, whose loss has been severe. The weather was piercing cold, the thermometer at about 19 deg. below zero, and before the engines had much chance to play upon the fire, some of the hose pipes were clogged with ice.

Messrs. Wilson & Co's loss was about $9,100, insured for $1,400. Mr. Delany, Mr. Fessell, and one or two Germans whose names we could not learn, were among the losers. We cannot estimate the loss, except of the poor families, who are rendered houseless, and have lost a great share of their clothing and furniture in the depth of a severe winter; some of the children would have lost their lives but for the help of the Chief of Police and his assistants. We hope the Relief Society will, without delay, visit these families and minister to their wants.

Taken on a Requisition.—Yesterday morning, a man named John Brown, was taken on the cars, on his road to Rochester, New York, by Deputy Sheriff A. Tabber, of that city, on a requisition from the Governor of the State of New York. Brown was arrested in this city about twenty months since, and convicted of stealing a trunk from Brown & Larkins warehouse, and after being in jail about five months before his trial, was, on his plea of guilty, sent to Waupun for 18 months; his term of imprisonment expired on Monday, at 12 o'clock, noon, when the Rochester officer was there to take him in charge. The charge against him now is the breaking into a house in Rochester, and stealing clothing to the amount of $6,00.

Intensely Cold Weather.—The last two days have been worthy of Russia, and quite surpass anything we remember to have experienced in Wisconsin. At sunrise, yesterday, the thermometer, in several exposures about our city, marked *twenty-one degrees below zero*. At the Water Cure, near Madison, at 6 A. M. yesterday, it was 29 below. At Hartford, Washington County, a business letter informs us, it marked 26 below. All over the State, and South of us in Illinois, the cold has been most intense. Its bitter breath penetrates the substantial mansions of the rich, and carries terror and suffering into the hovels of the poor. God help the poor in such weather! And let their fellow-men help them too.

Engine Co. No. 6.—At the annual meeting of Fillmore Engine Co. No. 6, held last evening, the following officers were chosen, for the ensuing year:

Foreman, Thomas M. Bohan; *First Asst.*, B. S. Quinn; *Second Asst.*, Timothy Buckley; *Secretary*, Thos. Nulan; *Treasurer*, Thos. F. Hoye; *Hose Captain*, James Markey; *Assistant*, Daniel Sullivan; *Wardens*, Martin Phelan; *Steward*, John Ballard; *Trustee for 2 years*, Harry Middleton.

Donation Party.—Mr. Ingraham, the faithful and deserving Pastor of the Episcopal Parish on the West side of the river, is to have a Donation Visit from his friends and parishioners to-night. We wish him a house-full, and hands full.

The Future.—Madame Clinton Price seems to have a large attendance of both old and young, anxious to hear their future destiny. Her room is No. 57 American House.

Fire at Wauwatosa.—The residence of the Congregational Minister, Mr. Clapp, at Wauwatosa, was destroyed by fire night before last.

Rich and Substantial Presents.—We advise all to remember the splendid assortment of Dry Goods which Messrs. Mack Brothers, of the Milwaukee SAVINGS STORE, 154 East Water Street, now have on hand. It consists of Silks & Merinos for Ladies dresses, of all styles and patterns, together with a most recherche Stock of Cashmere and Brocha Shawls, which are afforded at prices much below the ordinary standard. If a person wishes to make a holiday present of real value, they should not fail to remember that a Dress or a Shawl will be a more substantial gift to a mother, wife or sister, than almost any other they could bestow. The Establishment of the Messrs. Mack is just now the resort of all the fashionable shoppers of the town, and the Milwaukee SAVINGS STORE, has become the popular place for Dry Goods. They have obtained their reputation by selling so cheaply, that no one can scarcely compete with them. Remember that. dec20a231d6w

(Advertisement.)

S. Adams & Newcomb, seem to be really in earnest in what they say in their advertisement of to-day. Knowing very well that there are some who make an apparent show of selling at low figures, and a little less than other houses, thereby inducing customers to visit their stores, and then charging exorbitant prices for their goods. They respectfully invite the fashionable as well as those who are not fashionable, to call upon them, and be convinced that they can and do sell goods at as low figures as any other store in the west, and many articles for less. Give them a call.

ADVICE GRATIS.—If you will step into GATES & WILCOX'S Hardware Store you will find the best assortment of Housekeeper's Goods, Table Cutlery, Table Castors, Cake Dishes, Fruit Stands, Enamelled Ware, Stoves and Tin Ware in the city, and at prices that will please you.

WHY FEMALES SUFFER IN HEALTH.

THE MARRIED WOMAN'S

PRIVATE MEDICAL COMPANION

BY DR. A. M. MAURICEAU,

PROFESSOR OF DISEASES OF WOMEN.

One Hundredth Edition (500,000) 18mo., *pp.* 250.

A standard work of established reputation, found classed in the catalogues of the great Trade Sales of New York, Philadelphia, and other cities, and sold by the principal Booksellers in the United States.

Every woman can here discover, by comparing her own symptoms with those described, the nature, character and cause of her complaint, and be spared much anxiety and suffering, as well as the unpleasantness of making known to, or making inquiry of, a physician in respect to the numberless ailments to which she is subject. The wife about becoming a mother has often need of instruction and advice in respect to her situation, which she will here find. This book tells her what is the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand.

Those suffering from obstructions or irregularities peculiar to the female system, or from *prolapsus uteri* (falling of the womb), or from *fluor albus*, will each find in its pages the means of prevention, amelioration, and relief.

Much distress of mind, as well as thousands pecuniarily, might be saved to every husband, if the simplest laws appertaining to the marriage state were better understood. That they are not better understood is traceable to that natural and almost commendable sensitiveness that will rather suffer than consult or converse with even a medical man in respect to complaints peculiar to the female only.

In a copy of "*The Married Woman's Private Medical Companion*," every female has a physician that knows and describes her every symptom, feeling and ailment, and which she can consult at all times without violence to her sensitiveness.

[Extract of a letter from a gentleman in Dayton, Ohio.]

Dayton, May 1, 1847.

Dr. A. M. Mauriceau—*My Dear Sir*—My wife has been perceptibly sinking for some three years or more, in consequence of great anguish and suffering some months before and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent danger, and which was on the last occasion despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to me which I little conceived was possible. But for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave and my children left motherless.

Upon receipt of One Dollar, "The Married Woman's Private Medical Companion" is sent (*mailed free*) to any part of the United States, the Canadas, and British Provinces. All letters must be post paid, and addressed to Dr. A. M. Mauriceau, box 1224, New York City. Publishing Office, No. 129 Liberty Street, New York.

PIANOS AND MELODEONS ONLY.

IN ALL LARGE CITIES the PIANO and MELODEON trade is a department by itself, requiring the entire attention of the manufacturer or dealer. Believing that such an establishment can be sustained in this Musical City, the subscriber will devote his time to the trade in

Pianos and Melodeons exclusively.

During the past week he has received an additional supply to his before extensive stock, and now offers a complete assortment of very superior 6, 6½, 6¾, 6⅞ and 7 octaves Pianos, in rich and beautiful cases, chaste but not gaudy, from manufacturers of established and unequalled reputation, viz:

Lights, Newton & Bradbury, New York.
John B. Dunham, New York.
Hallet, Davis & Co., Boston.
Mason & Hamlin's Model Melodeons.

The subscriber regulates and tunes his Pianos and Melodeons if necessary after they arrive in Milwaukee, himself personally, thereby insuring as perfect order and tone in the instrument as when it left the manufactory.

ARRIVAL OF THE

CANADA!

BREADSTUFFS LOWER!

More Peace Rumors Afloat.

New York, Jan. 8—4 P. M.

The Canada has arrived.

Flour down 6d; wheat 2d; corn 6d.

Provisions dull. Consols ⅛ lower. Money active.

Political news is unimportant. Peace rumors expanding. F. A. A.

BARSTOW SWORN IN.

Madison, Jan. 8, 3 P. M.

Barstow was sworn in by Judge Collins at 5 P. M., yesterday.

Two hundred military present and a great number of people.

The Ball passed off finely last evening. D.

SIX O'CLOCK REPORT.

Additional by the Canada.

Halifax, Jan. 8.

Liverpool Cotton Market.—A languid tenor prevailed and prices, although inevitably lower, were rather easier than at the departure of the Pacific. The week's business was restricted to about 36000 bales. In Breadstuffs but little speculative demand existed and a slight decline upon the previous week's quotations had taken place.

Brown, Shipley & Co. quote western canal flour at 4,25 per bbl.

Provisions generally quiet, but a slightly improved demand in some articles is reported.

In the London money market rather more stringency was observed, Consols were a trifle lower than on the departure of the Arago. The closing rates for money and account being 86¼@86⅜.

NINE O'CLOCK REPORT.

Additional by the Arago.

The steamship Arago, from Havre and Southampton, with London dates to Dec. 18th, arrived at New York Jan. 7th at 2 o'clock. She brings 140 passengers and merchandise over $2,000,000 in value.

Daily News affirms that Sweden has ratified a treaty with England and France. The allied powers guarantee Territorial integrity to Sweden, &c., the latter engages not to alleginate any part of her territory to Russia, contracting parties also engage to reciprocate all propositions coming from Russia. Rumors of peace still abundant in France and England.

Count Esterhazy left Vienna for St Petersburg on the 6th with important despatches containing propositions for Pacification. The propositions have been submitted to the Czar, and are:

First.—The Black Sea is to be closed against war vessels of all nations, Russians, Turkish, and others.

Second—A general protectorate of the Great Powers over the the Christians of Turkey.

Third—The free navigation of the Danube.

Fourth—The Fortresses of Bomasund and Sebastopol not to be rebuilt.

It is stated that if the Czar refuses acceptance, Austria will withdraw her ambassador from St. Petersburgh. Both the London *News* and *Times* express doubts of the acceptance of the proposition by the Czar, and Esterhazy's instructions to return in the event of the Czar's refusal to negociate. The difficulty which existed between the English and French governments, relative to the conditions on which peace should be made, had been arranged.

It is said that through the efforts of the King of Sardinia the surrender of Kars is confirmed, and the Pacha, together with Gen. Williams and 16,000 troops were taken prisoners. Among munitions of war taken were 120 field pieces and 9 heavy guns.

The Russian General Bebatff has established his headquarters at Kateas, and intends shortly to resume offensive operations against Anakla and Redoat. His army is abundantly supplied with provisions by the armaments. The defiles between Kars and Erzoum are held by Russians. The affairs in the Crimea are quiet.

Great preparations continue to be made for the British Baltic fleet against spring operations. Contracts have been made in Sweden for furnishing fleets to accompany the army.

The Russian Ambassador arrived at St. Petersburgh on the 1st December.

Liverpool Breadstuff Market.—Messrs. Brown, Shipley & Co. report flour dull at the following quotations: western canal, 42; Ohio, 44; Philadelphia and Baltimore, 42s 6d a 42s 9d; Canadian, 40; Southern, 41. Wheat 1a2d lower, with but little speculative demand. White, 11s 9d; red, 10s 9d. Corn had declined 6d, and was dull on account of large arrivals in England from the Black Sea. Mixed, 44s.

Liverpool Provision Market.—Richardson, Spencer & Co. report Pork quiet at former rates; prime western 85s. Beef in improved demand; prime mess 120 s.

A contract has been made to-day with the Messrs. Simonson & Leegar to put the steamer Plymouth Rock afloat. She lies in a more favorable position.

Details by the Canada.

New York, Jan. 8.

The steamer Canada left Liverpool at 10 A. M. on Saturday, Dec. 22, arrived at Halifax at 12:30 P. M. Jan. 8th.

The Washington arrived off Windsor Dec. 21, and put back to Southampton from Lee after sundry mails and passengers.

Negotiation news are important, and the present position of the peace project is this: It may be remembered that Austria made suggestions of certain terms not known to the public, which the Austrian Cabinet considered might constitute a basis for pacific negotiations.

The suggestion Austria sent to Paris through the French Minister, at Vienna, the French Government sent a copy of said suggestions to London; much correspondence ensued between London and Paris, resulting in the original suggestion being sent back, altered, by France and England to Vienna. Austrian Cabinet expressed mortification that her suggestions were not adopted, simply more correspondence not resulting in Austria agreeing to append her name jointly with France and England to the modified propositions.

The proposition, thus amended, was, Sunday, December 24th, sent from Vienna, Count Esterhazy being messenger to St. Petersburg. Five or six days are allowed to reach St. Petersburgh, and 16 days more for the Czar's unconditional acceptance or refusal. The contents of the ultimatum are kept profoundly secret. If the Czar refuses, France and England threaten to continue the war, and Austria, to cease diplomatic relations, afterwards to be governed by the course of events. With transmission of proposals to Russia the Paris Moniteur publishes a treaty entered into between the allies and Sweden, guaranteeing the western limits of Sweden against Russian aggression. As Russia does not at present threaten Sweden, this ill timed treaty may be construed by Russia as an intended insult and cause of the rejection of the peace proposition.

The terms of Austria are very stringent; it is declared that the treaty is intended to prevent any complication of a nature to trouble the balance of power in Europe. By article, first King of Sweden engages himself not to cede Russia, nor to exchange with her, nor to allow her to occupy any position, or any portion of the territory belonging to the crown of Sweden and Norway. Engages, moreover, not to cede to Russia any right of pastorage, of fishery ground or any other nature whatsoever of the said territory of the Crown, to reject any pretension Russia might raise to establish the existence of any of the above named rights.

Cairo, Ill., Jan. 7.

The steamer *Fannie Bullit* arrived here last night, six days from New Orleans, bringing the *first mail* under the new contract with the Illinois Central R. R.

The Mound City depot was blown down this morning.

NEW YORK MARKET.

New York, Jan. 8.

Flour—Six pence lower; sales 7000 bbls.

Grain—Wheat steady. Corn lower and dull; sales 20,000 bush at 92.

Provisions—Pork unchanged; sales 189 bbls. Lard 480 bbls sold at 11¼.

Whiskey—Improving; sales 300 bbls at 36½

New York, Jan. 8.

The Herald's Washington correspondent telegraphs: Mr. Marcoletta has very important news, the particulars of which will be forwarded to-morrow, from Nicaragua. The substance of it is that there is a general uprising of the citizens against Walker. The principal men have joined the opposition. Among them is a son of Rivas himself who is a prisoner of war in Walker's hands. The speedy overthrow of Walker is looked upon as the probable or certain result of the new movement.

The Courier's correspondent telegraphs that it is rumored that the President is anxious for an organization because he has a special war message to communicate.

The correspondent of the Journal of Commerce also telegraphs: If rumors prove true, things are taking a shape in relation to our controversies with Great Britain, that looks a little more warlike than even the message or Senatorial oratory would represent. It is said that, since the message was written, advices have been received from Mr. Buchanan, with certain correspondence respecting the enlistment question, which puts the two parties in a very menacing attitude towards each other. These additional despatches will probably not be communicated to Congress till the House shall be organized, and they may not make so serious an impression as has been made by the facts already transpired.

Another step against Walker is about to be taken by the ratification of the Nicaragua treaty, which recognizes the claim of that state to the Musquito coast and country, and, in effect, therefore, is a guarantee of the title to the limits by her claimed.

New York, Jan. 8.

In the Court of Sessions this A. M., Judge Capron in a charge to the Grand Jury pronounced the prohibitory law *prima facia constitutional*, and declared that in the present state of the question in the Supreme Court, till the Court of Appeals shall decide it, he must hold that in all its parts a valid law.

LIFE AND DEATH.

THE

Mysteries of Disease Laid Open to the People.

Health is the Principle of Life—Disease is the Principle of Death

The R. R. R Remedies possess the great power to secure to the human system health and long life, and free the human family from pains, aches, and all bodily infirmities.

THE ART OF PRESERVING HEALTH AND THE METHOD OF CURING DISEASE
BY THE R R R'S

RADWAY'S READY RELIEF

IS TO BE USED in all cases where there is pain. The moment it is applied externally, or taken internally it will allay the most torturing aches, pains, cramps, spasms [illegible] quicker than Morphine, Chloroform, [illegible] or any other anodyne or remedy that has ever been used by medical men.

It is stated that these dangerous remedies, The public will bear in mind that Chloroform, Morphine, Opium &c only stifle the pain by stupifying the nerves, so that the patient will be [illegible] the power of feeling, and that after the influence of these narcotics have passed from the system—the pain again breaks forth with its terrible pangs with renewed violence.

Radway's Ready Relief stops the pain and removes the cause of the [illegible] it occasions it, it infuses new life to the weak and diseased parts. It braces the nerves, and establishes in the system a reaction of health and strength in the place of pain, weakness and disease.

As a counter irritant, Radway's Ready Relief applied to the surface of the body, where there is any inflammation or congestion, it will instantly scatter the congested blood, equalizes the circulation and in a few minutes the most excruciating pains are removed. This may be seen in cases of Lumbago, Gout and Rheumatism in their most terrible forms, where an application of Radway's Ready Relief will restore the patient ease and comfort.

Crippled with Rheumatism, Arm and Leg perished—No hopes of his recovery—Timely use of R R R—A wonderful cure

LETTER FROM ISAAC HUDDLESTONE

Papids Parish La June 16th 1855

Messrs Radway & Co,—Radway's Ready Relief has cured Peter May of Rheumatism when there was no hope of his ever recovering. I heard of his situation and I sent for him. His right arm and leg was all perished. He had no use of them at all, but by the use of your medicine in two months he was carrying the mail from Cherryville to Durr's Ferry. I objected. He said he must do something for a living. It has been fourteen months since he was cured. He is now well and working on his farm, and the whole cost of your medicine was five dollars.

TO THE MILLION!

READ AND JUDGE FOR YOURSELVES

PROFESSOR WOOD'S Hair Restorative is now in the most wonderful discovery of this age of progress, for it will restore permanently, grey hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all Scrofula and other cutaneous eruptions, such as scald head &c. It will cure as if by magic, nervous or periodical headache, make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling to extreme old age. We could give the testimony of more than one hundred thousand to the truth of every word we have written. See circular and the following

Carlyle, Ill, June 20, 1855

I have used Prof. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely grey, but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex Senator United States

Vincennes, Ind. June 10 1853

Prof. O. J Wood Dear Sir:—As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state for whomsoever it may concern that I have used it and known others to use it, that I have for several years been in the habit of using other hair restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head from dandruff and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance, and all this without discoloring the hair to that apply it, or the dress on which it drops. I would therefore recommend its use to every one desirous of having a fine color and texture of hair.

Respectfully yours
WILSON KING

A gentleman of Boston writes to his friends in New Bedford, thus

To your inquiries I would reply that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white and had been so for the last ten years and it was very thin on the top of my head, and very loose and pulled out freely, but I found that before I had used the second bottle (which was eight weeks) my hair was entirely changed to its original color (light brown) and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change and have never seen anything like white hair starting from the roots and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish or ask.

Yours, &c,

July 1 1854

Gardner, Me, June 22 1855

Mr Dyer Dear Sir—I have used two bottles of Prof Wood's Hair Restorative and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was as grey as a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind

Yours, &c,
DANIEL N MURPHY

St Louis, March 7 1854

Prof Wood—My hair commenced falling off some three or four years since and continued to do so until I became quite bald. I tried all the popular remedies of the day but to no effect. At last I was induced to try your celebrated Hair Restorative, and am happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afflicted

A C WILLIAMSON,
188 Second Street

St Louis June 28 1853

Prof Wood—As you are about to prepare and vend your recently discovered Hair Restorative, and as you requested my opinion of it, I will state that my hair was, a few months ago very grey, and after using two bottles of your Hair Restorative, it assumed its original color, and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied those who use it will not regret it as it gives the appearance of having been recently oiled. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair

I am, sir, yours, &c,

CARTER'S SPANISH MIXTURE

THE GREAT PURIFIER OF THE BLOOD!

THE BEST ALTERATIVE KNOWN!!

NOT A PARTICLE OF MERCURY IN IT!

An infallible remedy for Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Ague and Fever, Chronic Sore Eyes, Ringworm or Tetter, Scald Head, Enlargement and pain of the Bones and Joints, Salt Rheum, Stubborn Ulcers, Syphilitic Disorders and all diseases arising from an injudicious use of Mercury, Imprudence in Life, or Impurity of the Blood

This great alterative Medicine and Purifier of the Blood is now used by thousands of grateful patients from all parts of the United States, who testify daily to the remarkable cures performed by the greatest of all medicines, "CARTER'S SPANISH MIXTURE." Neuralgia, Rheumatism, Scrofula, Eruptions on the Skin, Liver Disease, Fevers, Ulcers, Old Sores, Affection of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and Joints are speedily put to flight by using this inestimable remedy.

For all diseases of the Blood, nothing has yet been found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the Digestion, gives tone to the stomach, makes the Skin clear and healthy, and restores the Constitution, enfeebled by disease or broken down by the excesses of youth, to its pristine vigor and strength.

For the DISEASES OF FEMALES it is peculiarly applicable, and wherever it has become known is regularly prescribed with the happiest effects. It invigorates the weak and debilitated, and imparts elasticity to the worn out frame, clears the skin, and leaves the patient fresh and healthy. A single bottle of this inestimable remedy is worth all the so called Sarsaparillas in existence.

The large number of certificates which we have received from persons from all parts of the United States, is the best evidence that there is no humbug about it. The Press, hotel keepers, magistrates, physicians, and public men, well known to the community, all add their testimony to the wonderful effects of this GREAT BLOOD PURIFIER.

Call on the Agent and get an Almanac, and read the details of astonishing cures performed by CARTER'S SPANISH MIXTURE, (IN MOST CASES WHERE EVERY THING ELSE HAD SIGNALLY FAILED) The limits of an advertisement will not admit their full insertion.

Helmbold's Genuine Preparations.

HELMBOLD'S HIGHLY CONCENTRATED
COMPOUND FLUID EXTRACT BUCHU,

FOR DISEASES OF THE BLADDER and Kidneys, Secret Diseases, Strictures, Weaknesses, and all diseases of the sexual organs, whether in male or female, from whatever cause they may have originated, and no matter of how long standing.

If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not trust yourself in the hands of quacks, who start up every day in a city like this and fill the papers with their glaring falsehoods, too well calculated to deceive the young, and those not acquainted with their tricks. You cannot be too careful in the selection of a remedy in these cases.

The Fluid Extract Buchu has been pronounced by eminent physicians the greatest remedy ever known. It is a medicine perfectly pleasant in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this dreadful disease, and unlike other remedies, does not dry up the disease in the blood.

Constitutional debility brought on by self abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this infallible remedy. And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found acting both as a cure and preventative

HELMBOLD'S HIGHLY CONCENTRATED

Compound Fluid Extr. Sarsaparilla

For purifying the blood, removing all diseases arising from excess of Mercury, exposure and imprudence in life, chronic constitutional disease, arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of scrofula, salt rheum, scald head, ulcerations of the throat and legs, pains and swellings of the bones, tetter, pimples on the face, and all scaly eruptions of the skin

This article is now prescribed by some of the most distinguished physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparilla yet offered to the public. Several cases of secondary syphilis, mercurial and scrofulous diseases, have entirely recovered in the incurable wards of our public institutions, which had for many years resisted every mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases after the glands were destroyed and the bones already affected

NOTICE—Letters from responsible physicians and professors of several medical colleges, and certificates of cures by patients will be found accompanying both preparations.

PRICES—Fluid Extract of Buchu, $1 per bottle, or six bottles for $5. Fluid extract of Sarsaparilla, $1 per bottle, or six bottles for $5—equal in strength to one gallon of syrup of sarsaparilla.

Prepared and sold by H. T. HELMBOLD, Chemist, 263 Chestnut-st, near the Girard House, Philadelphia.

"EUREKA."

THE CHOLERA SPECIFIC.

THE Proprietor has chosen the above as an appropriate cognomen for his new discovery, and thousands have already added their testimony to the wonderful effects of this great Remedy, certifying it as the greatest and most important achievement of the age. This great desideratum has long been sought by men of science, experience and skill. The indefatigable energies of the proprietor has at last crowned with success, and he fearlessly exclaims to all the world, "EUREKA!"—"I HAVE FOUND IT."

He has used it for five years in his private practice in New York, on the Isthmus and in California, and in no case has it failed in Cholera, Cholera Morbus, Cholera Infantum, Diarrhoea and Dysentery.

It is a sovereign Specific—instantly relieving pain in the stomach or bowels, cramps or spasms, quieting the worst diarrhoea or dysentery in three hours, and restoring healthy action to the diseased organs, enabling them to perform their natural functions, rendering the patient as healthy as before his attack. No person should be without it either at home or abroad. The medicine is put up in small vials, containing six Pills, each sufficient for any one case. Directions accompany each Bottle, with a fac simile of the proprietor's signature. Not genuine without. Price [illegible] cents per bottle.

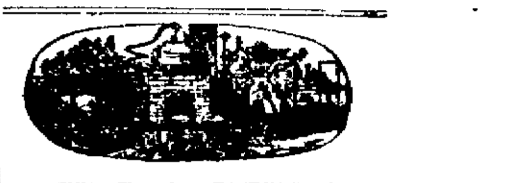
MEDICAL.



AYER'S PILLS.

"Wisdom shall bow down to it, and the great of the earth shall kneel before it"

Never could this be said with more truth, than it now applies to this remedy for affections of the Throat and Lungs. The exalted in learning and power acknowledge its supremacy, while both the little and the great can feel its benefits. The liberal minded among those skilled to cure are free to own its mastery over distempers which have baffled their art. Those of exalted stations are not ashamed to testify to its virtues, but deem it a duty and a pleasure to thus hold out the lamp of their experience to their suffering fellow men.

Witness the following
(Translation)

Vermillionville La, April 1853.

Mons le Dr J C Ayer —I have of late made frequent use of your Cherry Pectoral in my practice and am happy to inform you that in no case yet has it failed me. I have made some signal cures of Laryngitis and Bronchitis with it and have completely cured one case of Asthma, which has withstood every other medicine I could employ. Accept, sir, the assurances of my distinguished consideration,

JULES CLAUD GOUGUET, M D,
Late Surgeon of the Royal Marine, France

Extract from a letter of our Minister at the Court of the Sublime Porte

Legation of the U S A, Constantinople, Turkey

Dr. J. C Ayer, Dear Sir.—The Cherry Pectoral received from you for the Sultan has been delivered to his private Secretary at the palace, and you will, doubtless, hear from it in due season. That that you were so kind as to send me has been given to friends, who have in many cases, found it exceedingly useful

Yours Respectfully, GEO P MARSH,
Minister Plenipotentiary of the U S A to Turkey.

DR. WEAVER'S
CANKER & SALT RHEUM SYRUP & CERATE

IT IS AN UNDISPUTABLE FACT THAT the above medicines are the only infallible remedies now before the public for cutaneous Eruptions, Salt Rheum, Erysipelas, Sore Legs, Ulcers, Old Fever Sores, Scald Head, Scorbutic Eruptions, &c, &c

Cases that the most eminent Physicians have despaired of relieving, immediately yielded to their curative powers, and when used in accordance with the printed directions, which accompany each bottle, the Syrup and Cerate combined eradicate any of the above named diseases, and leaves the sufferer without a blemish. These medicines are too well known to require anything more than a plain statement of facts. The joyful intelligence is reaching us daily from East, West, North and South, of the wonderful cures they are performing.

See what is said by those who have used these medicines.

The Rev Samuel Henry, of Palmer, Mass., says, "they have done me more good than all the other medicines I have used for Erysipelas,"

Capt. William Vail, of the steamer Granite State, says, "they have cured my daughter of Salt Rheum and Scald Head of six years' standing. She was literally covered with sores, is now perfectly cured by the use of the Syrup and Cerate."

Dr A J Johnson, of North Wardsboro, Vt., says, "a Scrofulous disease of the hip joint, and Scald Head in the same child, have been cured by the Syrup and Cerate."

Rev August Boller says "it has cured the Salt Rheum in my leg"

J Hatfield Fraser, Esq, editor of the Somerset Whig, Somerville, N J, says "my mother has been completely cured of a severe case of Tetter of long standing, that had defied the skill of the best Physicians."

Hon. Joel Loomis, of East Lyme, Conn., says, "I was completely cured of Erysipelas in my legs, after a council of the best Physicians in the County had pronounced the disease incurable, (at my age which was seventy-eight years, but Weaver's Syrup and Cerate did the work at once."

Miss Latham, Esq., of Orient, Long Island, N Y, says, "I hardly know how to express my gratitude to you and your medicines. I have been afflicted for more than thirty years with Salt Rheum in its worst form. I tried several Physicians in New York, Brooklyn and Greenport. I have dieted and taken medicines enough to float a pretty large boat, but they did me no good. I have taken your medicines one year, and am now able to work and sleep without an ache or a pain, and my neighbors say I am the sprightliest man on the Island."

The Rev. J S Swan, of New London says, I have used the Syrup and Cerate in my family for more than a year and I consider it completely adapted to sustain the high reputation that is claimed for it. I have seen it used in a number of cases for Salt Rheum and Erysipelas, with entire success.

Ask Seth Prisbery, of Taunton, Mass., what the medicines will do, ask William Barber, of Three Mile Bay, Jefferson Co, N Y, what the syrup has done for him, ask G F & W H Boynton, of Perkinsville, Vt., ask F L Kent, of Chicago, Ill, ask Martha Cottle, of Martha's Vineyard, Mass, ask Wm E Hoskins, or Wm F Benjamin, Esq., of New London, ask Dr M M Murdock, of Pulaski, N Y, ask J. C Smith, of Brooklyn N Y., who was cured of Scrofula, after losing his leg by the disease, and suffering for years, has been perfectly cured by the use of the Syrup & Cerate, ask Curtis Burrough, of Shelby, N. Y., who has been cured of a severe case of Salt Rheum, ask Chas. Akin of Home, N Y, what the Syrup and Cerate will do for sore legs, ask Winslow and Slater, Merchants, Virgil, N Y what it will do for Fever Sores. In a word, ask every body who has ever tried these wonderful medicines, and the answer will be the same—THEY CURE.

HARNDEN'S
CONCENTRATED COUGH SYRUP.
FOR THE CURE OF
COUGHS, COLDS AND CONSUMPTION

THE Proprietors of this TRULY VEGETABLE AND HIGHLY VALUABLE SYRUP, claim for it no magic powers, nor do they offer it to the public as an antidote for all the ills and ailments of life—but solely as a remedy for Coughs, Colds, and diseases of the Chest and Lungs, in advanced as well as incipient stages. They WARRANT THE SYRUP PURELY VEGETABLE, and free from Opiate or Drug of any kind.

Unlike all other of the many advertised remedies for Colds and Consumption—the action of this Syrup is direct—hand in hand with nature—its benefits are immediate—not leaving the invalid time to regard it as an experiment, requiring slow process, in arresting disease, [illegible] health. Ordinary Coughs and Colds generally yield within twenty-four hours. Other cases [illegible] and which, through negligence or continued imprudence, have assumed more alarming symptoms, usually require the use of the Syrup from ten to twenty days. In cases of hereditary or constitutional character, and which, in many instances, have gained mental as well as physical possession of the invalid, more time is necessarily required, in arresting the disease—in eradicating the taint of blood—in restoring natural sleep, and quiet of mind—and securing permanent health.

In its highly concentrated form, one bottle of this Syrup is equal to six times the quantity were it prepared in any other manner, and ONE BOTTLE WILL TEST ITS VIRTUES IN EVERY CASE.

For the purpose of securing themselves and the public against fraud or imposition, every agent for the sale of the Syrup will be personally selected and appointed by one of our firm, or our general agent, and as a further safeguard, the directions [illegible]
